

A Simple,  
Secure Solution  
for Collecting  
Payment.

The iSolutions Collections Management application integrates seamlessly within Microsoft Dynamics 365 Business Central, streamlining the collections process and reducing the amount of time spent chasing down payment from customers, so you can focus on running your business.

**Reduce bad debt and increase cash flow by automating your collections process.**

## WHY ISOLUTIONS?

### CASH RECEIPTS

Simplify the process of Cash Receipts with a single click.

### EMAIL.

Email your customers ALL open invoices with a single click.

### TARGET.

Focus on customers based on collector, balance, aging, and more.

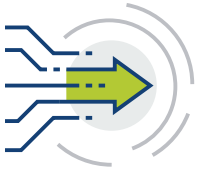

### NOTES.

Track customer interactions, add follow up actions with date and more.

### PAYLINK.

Allow your customers to pay you with a paylink on the invoice.

## STREAMLINED PROCESS

It's hard to beat an all-in-one solution. The iSolutions Collections Management app integrates seamlessly with Microsoft Dynamics 365 Business Central. With iSolutions Collections Management, you can:

- Centralize customer Accounts Receivable and contact details
- Automatically target customers with overdue/outstanding invoices
- Expedite the collections process with our PayLink feature—a way for your customers to view and pay their invoices with just the click of a button

## INCREASED CASH FLOW

You're in business to make money, and it can be frustrating having to chase after your clients to get them to pay their invoices. iSolutions Collections Management can help:

- Streamline the entire collections process, saving you valuable time to focus on growing your business
- Make it as easy as possible for your customers to pay their outstanding invoices with automated follow up notices and the PayLink one-click feature
- Ensure past-due notices are sent to the correct contacts in a timely manner, every time

## CUTTING-EDGE SECURITY

Keeping your business's and your customers' information safe and secure is of the utmost importance. iSolutions Collections Management helps you minimize any risk or liability with our leading-edge security solutions:

- Data encryption and tokenization for maximum security
- PCI compliance to prevent cyber fraud
- Off-site cloud-based storage for customer card information
- Ability to set individual user permissions

## AND THE LIST GOES ON

The ways in which the iSolution Collections Management app can help your business flourish are almost too many to name! But here are just a few more, to whet your appetite:

- Reduce your outstanding accounts receivable
- Email out ALL outstanding invoices per customer
- Centralize customer A/R and contact details
- Target customers based on aging and balance
- Highlight invoices as promised for payment
- Track customer interactions and required follow-ups
- Block a range of customers with a specified overdue aging amount

## GETTING STARTED IS EASY.

We could go on and on about all the benefits of iSolutions Collections Management and how it can help streamline your payment processing. But it would help to know a little more about you and your business and goals. Why not give us a call to chat about the best solutions for you?
